ABOUT ME

I'm a passionate Web Developer who loves experimenting with new technologies and crafting interactive, modern user interfaces. I'm proficient in React.js, TypeScript, Next.js, Tailwind CSS, Supabase, MongoDB, Bun, NestJS, Node.js, React Native, and Markdown.

I've worked on various client-based projects including travel websites and company profiles, while constantly exploring new tech stacks to enhance performance and efficiency.

I'm a fast learner, adaptive, and always eager to improve. My goal is to become a Software Engineer at a leading tech company and grow my career remotely on a global scale.

WORK EXPERIENCE

Front-End Developer - FullStack Lombok   Jul 2024 - Dec 2025

- Develop and Maintain Web Applications: Create, test, and maintain web applications using languages like JavaScript and TypeScript, and frameworks such as React.js and Next.js.
- Collaborate with Clients and Teams: Regularly meet with clients and team members to discuss project requirements, updates, and feedback to ensure the successful delivery of web projects.
- Implement and Test New Features: Continuously integrate and test new features and technologies, ensuring compatibility and functionality across different browsers and devices.
- Mentor Junior Developers: Provide guidance and support to junior developers, helping them improve their coding skills and understand best practices in web development.

Web Developer - LumoSites   Jan 2023 - Jan 2025

- Web Developer at Lumosites: Lead development of the Lumosites platform using JavaScript, TypeScript, React.js, Next.js, and Tailwind CSS. Collaborate with clients to deliver customized web solutions. Mentor junior developers to enhance team capabilities.
